

DO YOU KNOW DELTAVIT?

Expert creator of solutions for the future in farm specialties, DELTAVIT designs, develops, manufactures and markets, in France and internationally, effective and innovative solutions for monogastrics and ruminants.

DELTAVIT, A SUBSIDIARY OF THE CCPA GROUP

DELTAVIT is a subsidiary of the CCPA GROUP, one of the leading French players specializing in animal nutrition and health for more than 50 years. DELTAVIT relies on its **field experience**, that of its **partners and breeders**, but also on its **experts** and the CCPA GROUP's **Research and Development** team. Thanks to its laboratories, its research station, its network of multi-species reference farms and its multiple partnerships with research organizations, the technical and innovative products of the CCPA GROUP and DELTAVIT are **tested and validated to meet all requirements**.

DELTAVIT, THE EXPERT IN FARM SPECIALITIES

DELTAVIT offers a wide choice of solutions adapted to all farming issues:

- o **Nutritional solutions** to be distributed in rations, in water or directly to animals (complementary feed, complementary dietetic feed, mineral feed, etc.).
- o **Nutritional solutions in shaping** to meet all expectations.
- o **Farm analyzes, audits and diagnostics** intended to assess the condition of the animals and their needs.
- o **Hygiene solutions for water treatment** but also for **cleaning and disinfection** of buildings, equipment and vehicles.

A 3,250 M² SITE
equipped with cutting-edge tools
and technologies

MANUFACTURING UNITS
for liquids, pastes, soluble powders
and effervescent tablets

PACKAGING LINES
From 100 g to 25 kg and
from 250 ml to 1000 l

FARM SPECIALITIES

Delta[®] **RANGE**

Comfort and Performance for Pigs

DELTAVIT 
CCPA GROUP

PIGLET

OUR SELECTION

DELTA® ELECTRO BOOST

The product with 3 effects:
Boost + Digestive Comfort + Electrolytes

- SPC wheat, citric acid
- Particularly stimulating for weak piglets
- A unique salty, sweet, and sour taste

25-kg - Powder - From the first days of life until the end of post-weaning: 10 to 15 g/d.
Use pure, diluted, dry or as a porridge

DELTA® IRON

Palatable oral iron that compensates for post-natal deficiency

- 3 hyper-concentrated forms of iron intake (sulfate, chelate and fumarate) + palatable substances
- Limits the need for injections

5 kg or 20 kg bag - Powder - 10 g / piglet in total distributed for 10 days from the third day on the ground or in a plate

PRODUCT'S ADVANTAGES

Compatible with all piglet feeds.
Also effective on young ruminants.

DELTA® PATORAL

The boost at birth

- Cocktail of energy (MCT, colostrum, cod liver oil, fish oil) and vitamins

250-ml - Liquid
1 dose (2 ml) from birth to renew at 48 hours

DELTA® PRIMWATT

Drying effect for the hygiene and comfort of newborn piglets

- High absorbent vegetable fibers and clays
- Can also be used during farrowing or during diarrhea for animals and pen

25-kg - Powder
To sprinkle or for individual soaking

PRODUCT'S ADVANTAGES

Formula designed to limit regurgitation

DELTA® EASY EFFECT

Rehydration of piglets

- Electrolytes (NaCl, NaK)
- Dextrose
- Sodium bicarbonate
- Trace elements (Mn, Se, Zn, Co)
- Vitamins (A, D3, E)

5-kg - Powder
Dilute 100 g in 2 l of water. Allow 0.5 to 1 l/d / liter

WELFARE

DELTA® RESPIMINT

Respiratory Comfort

- Combination of antioxidant aromatic substances to sustain natural defences.

5-l - Liquid
10 ml per 100 kg bodyweight for 5 days

HEAT STRESS

OUR SELECTION

DELTA® THERMO PIG

Maintenance of performance and stimulation of lactation during hot periods

- Plant extracts to stimulate appetite
- Sorbitol and betaine for the liver and transit
- Buffer substances

20-kg - Powder - Sow: 25 g/d (pregnant and early lactation) to 50 g/d (peak lactation) - Fattening pigs: 25 g/d

DELTA VIT'S ADVANTAGES

The **ThermoTool** application makes it easy to identify the level of heat stress risk and to access advice tailored to the level of stress detected. Available for free on the App-store and Google Play.

LACTATION

OUR SELECTION

DELTA® SOW BOOST

Energy supplementation of sows

- Mixture of oils (cod liver and flax) and vitamins A, D3 and E.
- Help for the smooth running of the farrowing.

5, 20 or 200 liters - Liquid - 30 ml/d

DELTA® MISE-BAS

Accompaniment of farrowing and the rise in lactation

- Yucca extracts, antioxidants, vitamin E and selenium

15-kg - Powder
50 g/d for 5 days before parturition

DELTA MIGO

Preparation for oestrus and reproduction

- Concentrate of rapid energy, more than 10 vitamins, trace elements, sugars and plants extracts rich in polyphenols

10-kg - Powder - 30 g/d for 5 days before the IA

PRODUCT'S ADVANTAGES

A very complete product with an excellent quality / price ratio

DELTA® CLARIO 5

Urine acidification and hygiene of the urinary sphere

- Synergistic combination of plant extracts
- The latest trials (2020) show a drop in pH of 0.8 points.

10-kg - Powder - **Usable in Organic Agriculture**
To be mixed in the feed at a rate of 10 g / day for 8 days, i.e. 4 to 5 kg / tonne of feed during its manufacture

PRODUCT'S ADVANTAGES

Remains effective after granulation

DELTA TASTATOL

Boost consumption in a degraded situation

- Sorbitol, choline, methionine, betaine and plant extracts

5 l or 20 l - Liquid
30 ml / sow / day for 5 days at the start of lactation - 20 ml / pig / day for 5 days
